MEDICAL FEE DISPUTE RESOLUTION FINDINGS AND DECISION

GENERAL INFORMATION

Requestor Name

GLOBAL MOLECULAR LABS

Respondent Name

TWIN CITY FIRE INSURANCE COMPANY

MFDR Tracking Number

M4-17-3087-01

Carrier's Austin Representative

Box Number 47

MFDR Date Received

June 19, 2017

REQUESTOR'S POSITION SUMMARY

Requestor's Position Summary: "The charges referenced herein were filed with the Carrier and denied for 'absence of precertification/authorization'. We have requested reconsideration from the carrier and they are maintaining the denial rationale. Other dates of service for this claimant were paid by the carrier. We believe this claim has been arbitrarily denied."

Amount in Dispute: \$2,251.68

RESPONDENT'S POSITION SUMMARY

Respondent's Position Summary: "Our investigation found the following: Service denied as drug testing is outside the ODG and requires UR approval."

Response Submitted by: The Hartford

SUMMARY OF DISPUTED SERVICE(S)

Date(s) of Service	Disputed Service(s)	Amount In Dispute	Amount Due
August 9, 2016	G0479 and G0483	\$2,251.68	\$344.79

FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and applicable rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §134.600 sets out the guidelines for preauthorization, concurrent review, and voluntary certification of healthcare.
3. 28 Texas Administrative Code §134.203 sets out the fee guidelines for the reimbursement of workers' compensation professional medical services provided on or after March 1, 2008.

4. The insurance carrier reduced payment for the disputed services with the following claim adjustment codes:
 - 15 – Payment adjusted because the submitted authorization number is missing, invalid, or does not apply to the billed services or provider
 - 293 – This procedure requires prior authorization and none was identified
 - AUTH – Payment denied/reduced for absence of, or exceeded, pre-certification/authorization. Pre-authorization was not obtained and treatment was rendered without the approval of treating doctor.

Issue(s)

1. Are the insurance carrier's denial reasons supported?
2. What is the applicable rule for determining reimbursement for the disputed services?
3. Is the requestor entitled to reimbursement?

Findings

1. The requestor billed HCPCS Codes G0479 and G0483 rendered on August 9, 2016. The insurance carrier states in pertinent part, "Service denied as drug testing is outside the ODG and requires UR approval."

The insurance carrier denied the disputed service with denial reason codes "15 – Payment adjusted because the submitted authorization number is missing, invalid, or does not apply to the billed services or provider", "293 – This procedure requires prior authorization and none was identified" and "AUTH – Payment denied/reduced for absence of, or exceeded, pre-certification/authorization. Pre-authorization was not obtained and treatment was rendered without the approval of treating doctor."

The Division will determine whether the disputed services, HCPCS Codes G0479 and G0483 rendered on August 9, 2016 required preauthorization pursuant to 28 Texas Administrative Code §134.600.

28 Texas Administrative Code §134.600(p)(12) states in pertinent part "(p) Non-emergency health care requiring preauthorization includes: (12) treatments and services that exceed or are not addressed by the commissioner's adopted treatment guidelines or protocols and are not contained in a treatment plan preauthorized by the insurance carrier. This requirement does not apply to drugs prescribed for claims under §§134.506, 134.530 or 134.540 of this title (relating to Pharmaceutical Benefits)."

HCPCS Code G0479 is defined as "Drug test(s), presumptive, any number of drug classes; any number of devices or procedures by instrumented chemistry analyzers utilizing immunoassay, enzyme assay, TOF, MALDI, LDTD, DESI, DART, GHPC, GC mass spectrometry), includes sample validation when performed, per date of service."

HCPCS Code G0483 is defined as "Drug test(s), definitive, utilizing (1) drug identification methods able to identify individual drugs and distinguish between structural isomers (but not necessarily stereoisomers), including, but not limited to, GC/MS (any type, single or tandem) and LC/MS (any type, single or tandem and excluding immunoassays (e.g., IA, EIA, ELISA, EMIT, FPIA) and enzymatic methods (e.g., alcohol dehydrogenase)), (2) stable isotope or other universally recognized internal standards in all samples (e.g., to control for matrix effects, interferences and variations in signal strength), and (3) method or drug-specific calibration and matrix-matched quality control material (e.g., to control for instrument variations and mass spectral drift); qualitative or quantitative, all sources, includes specimen validity testing, per day; 22 or more drug class(es), including metabolite(s) if performed."

28 Texas Administrative Code (TAC) §137.100 (a) states, in pertinent part, "Health care providers shall provide treatment in accordance with the current edition of the *Official Disability Guidelines - Treatment in Workers' Comp...*" Health care provided in accordance with the Division treatment guidelines is presumed reasonable as specified in Labor Code §413.017, and is also presumed to be health care reasonably required as defined by Labor Code §401.011(22-a).

Review of the 2016 ODG pain chapter under the "Drug testing" finds that drug testing is recommended. The division concludes that the services were provided in accordance with the division's treatment guidelines; that the services are presumed reasonable pursuant to 28 TAC §137.100(c), and Labor Code §413.017; and are also presumed to be health care reasonably required as defined by Labor Code §401.011(22-a).

For the reasons stated above the Division finds that insurance carrier's denial reasons are not supported and the requestor is entitled to reimbursement for the services in dispute.

2. The services in dispute, HCPCS Codes G0479 and G0483 are for clinical laboratory services subject to 28 Texas Administrative Code §134.203 (b) which states in pertinent part, "For coding, billing, reporting, and reimbursement of professional medical services, Texas workers' compensation system participants shall apply the following: (1) Medicare payment policies, including its coding; billing; correct coding initiatives (CCI) edits; modifiers; bonus payments for health professional shortage areas (HPSAs) and physician scarcity areas (PSAs); and other payment policies in effect on the date a service is provided with any additions or exceptions in the rules."

28 Texas Administrative Code §134.203 (e) states in pertinent part, "The MAR for pathology and laboratory services not addressed in subsection (c)(1) of this section or in other Division rules shall be determined as follows: (1) 125 percent of the fee listed for the code in the Medicare Clinical Fee Schedule for the technical component of the service; and (2) 45 percent of the Division established MAR for the code derived in paragraph (1) of this subsection for the professional component of the service."

Reimbursement is determined pursuant to Medicare's 2016 Clinical Laboratory Fee Schedule found at, <https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/ClinicalLabFeeSched/> and calculated as follows:

Procedure code G0479, rendered on August 9, 2016, represents a lab service paid per Rule §134.203(e). The Medicare Clinical Lab Fee is \$60.60 x 125% equals a MAR amount of \$75.75. As a result, the requestor is entitled to reimbursement in the amount of \$75.75.

Procedure code G0483, rendered on August 9, 2016, represents a lab service paid per Rule §134.203(e). The Medicare Clinical Lab Fee is \$215.23 x 125% equals a MAR amount of \$269.04. As a result, the requestor is entitled to reimbursement in the amount of \$269.04.

3. Review of the submitted documentation finds that the requestor is entitled to reimbursement in the amount of \$344.79. Therefore, this amount is recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has established that reimbursement is due. As a result, the total amount ordered is \$344.79.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code Sections 413.031 and 413.019 (if applicable), the Division has determined that the requestor is entitled to additional reimbursement for the services involved in this dispute. The Division hereby ORDERS the respondent to remit to the requestor the amount of \$344.79 plus applicable accrued interest per 28 Texas Administrative Code §134.130, due within 30 days of receipt of this Order.
